

**ALAMO**  
SMART HOME

# Alamo Is There For You

## #1 Rated In San Antonio & Austin

We take our reputation seriously. We have the highest rating and the most reviews of any security company in Central Texas. You can trust that if you need anything, Alamo Smart Home has your back.

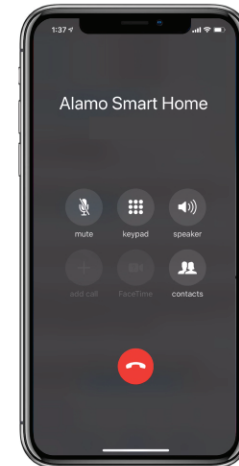

## Local Service And Support

We don't believe you should be serviced remotely. We believe that truly great service comes from companies that are based in your area. Know that you will be taken care of by a local company who cares about you, and won't make you wait weeks for service calls.

## Six Month Quality Installation Guarantee

We guarantee that you will be satisfied with the equipment and the installation, or we will pay for up to six months of your service until you are fully satisfied. Rest assured that when you choose Alamo Smart Home, you are getting the best!

# Your Support Team

We have partnered with top of the line brands like Honeywell, 2GIG, Alarm.com and AvantGuard. We bring you the best that each of these companies has to offer, from total Home Security to Home Automation and Surveillance.

Through the Total Connect & Alarm.com Apps, we give you remote access to everything you hold dear. We are proud to be partnered with Honeywell, the leading provider of residential security.

**We are proud to protect you and your family!  
Thank you for choosing us!**

# Cellular Technology

## Telephone Line

VS.

## Cellular Tower

**No Landline Required**

# Enjoy Simplicity

## Total Home Control

Control the automation in your house from your panel, and use audible commands to control your entire home.

## View Live Video

Watch all your cameras live from your Smart Home keypad and your mobile devices from anywhere! Speak to visitors at your door from the safety of your living room.

## Built-In Glassbreak Detection

Most break-ins occur through broken windows. Your built in Glassbreak Detector will trigger your alarm before they can enter your home.

## SmartPhone App

Stay in control from anywhere! You can remotely manage your system using your iPhone or Android smartphone. Control your locks, thermostat, lights, doorbell cam, even your garage door via your mobile app.

# Locks That Keep You Safe

## Enhance Your Security System!

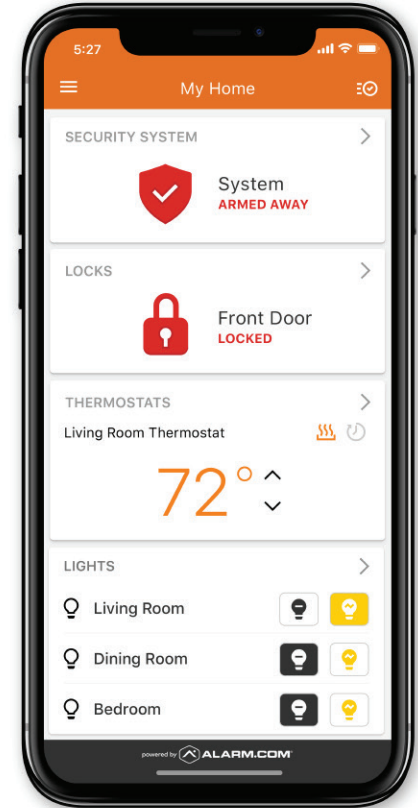

- Unlocking disarms your alarm, making entry easy
- Control locks from the Security Panel, Web and Mobile App
- Set your doors to lock automatically

## Smart Phone Control

- Lock/Unlock doors via smartphone or computer
- Receive notifications when door lock is accessed
- Check status remotely to see if doors are locked

## Never Be Locked Out Again

- Use a Key, A Code or your Phone to open your door
- Store up to 30 unique access codes
- Be notified who accesses your doors, and when

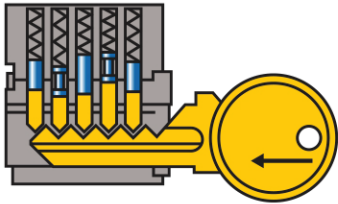

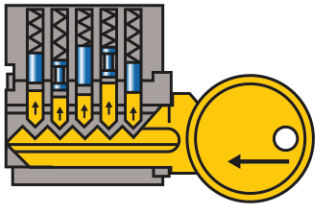

# Lock Bumping & Crime

## What is Lock Bumping?

There are many techniques that thieves have developed to bypass traditional pin and tumbler locks that are present in most homes. One such technique is called "bumping." Lock bumping, uses a specially cut key that can defeat conventional pin and tumbler locks.

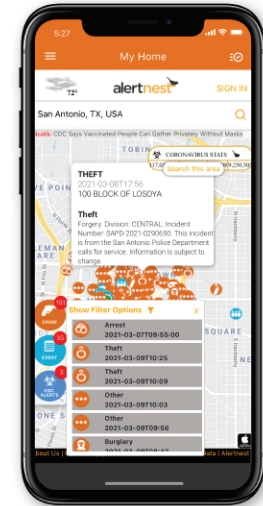

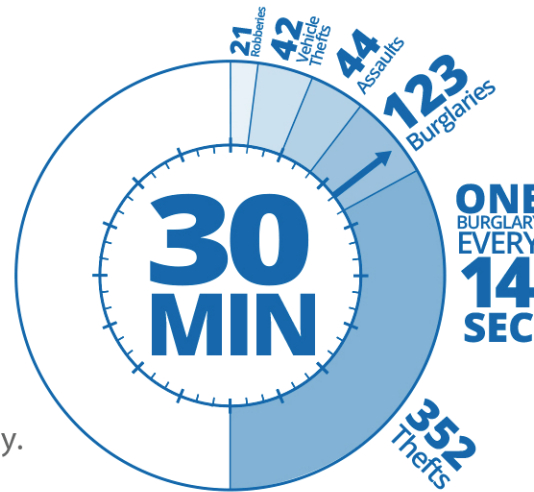

A simple tap on the bump key causes the pins to bounce.

With all of the pins away from the cylinder the lock will turn freely.

## FBI Burglary Overview

- Each Year there are over 2 Million home burglaries
- Average dollar loss per burglary offense was \$2,119
- Entry breakdown:
  - 60% Forcible entry
  - 33% Without force
  - 6% Attempted forcible entry
